## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The patent term adjustment to date is 0 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 0 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

## Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

### EXAMINER'S AMENDMENT

1. This Examiner's Amendment is responsive to the Amendment and Reply to Final Rejection filed March 26, 2003. The Examiner acknowledges the amendments to the specification and to claims 1, 5, 6, 8 and 11. Claims 1-3 and 5-15 are pending.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John G. Posa on June 3, 2003.

3. The application has been amended as follows:

In claim 6, line 1, "including" has been changed to --or--.

4. The following is an examiner's statement of reasons for allowance:

Regarding claims 1-3, 5 and 11-15, no prior art of record, alone or in combination, teach or fairly suggest a temperature sensing catheter, as claimed by Applicant, having a temperature sensing tip including at least one presentation element having a temperature sensor supported thereon, where each presentation element has a proximal end coupled to the distal end of the catheter and a distal end coupled to a sliding filament disposed within the catheter such that

pulling on the proximal end of the filament causes the fingers to expand outwardly, and a data unit that receives signals from the temperature sensors and displays information indicative of the physiologic temperature of the vessel wall. The closest prior art of record is the Interventional Thermodynamics, Inc. reference. Interventional Thermodynamics, Inc. teach a catheter having a structure similar to that of claim 1 of the present application. However, Interventional Thermodynamics, Inc. fails to teach or suggest a data unit that displays the physiologic temperature of the vessel wall as claimed by Applicant.

Regarding claims 6-10, no prior art of record, alone or in combination, teach or fairly suggest a temperature sensing catheter, as claimed by Applicant, having a distal temperature sensing tip including a plurality of cantilevered fingers, where each finger supports a temperature sensor, and a sliding filament disposed within the catheter, where pulling on the proximal end of the filament causes the fingers to expand outwardly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles A. Marmor, II whose telephone number is (703) 305-3521. The examiner can normally be reached on M-TH (7:00-5:00).
